The men and women of Con Edison work hard to deliver safe, reliable power every day to the people who live in America's biggest, busiest and most exciting city. And while we don't claim perfection, we strive toward it 24 hours a day, 7 days a week, 365 days a year. We're proud to serve our city. After all, we live here too. And together we'll continue to do everything we can to keep it strong.

The Con Edison Long Island City Network Recovery Team
