A terminal illness such as cancer affects the whole family, not just one member. The mission of the Greek Children's Fund (GCF) is to make every effort possible to provide assistance to financially distressed families. The GCF, affiliated with Schneider's Children's Hospital at Long Island Jewish Medical Center, has assisted families in need for the last 25 years. Sensitive to the needs of families coping with life-threatening illnesses, the GCF provides financial and emotional support to pediatric patients and their families.

Since its inception, the GCF has established strong ties with philanthropic institutions, private organizations and businesses in the tri-state area which provide the GCF with invaluable assistance and support. Volunteers work intensely in order to raise funds to provide these pediatric patients with the help they so desperately need.

The Greek Children's Fund provides for the following professional services to patients with life-threatening illnesses:

- Financial assistance for the non-medical needs of pediatric patients and their families.
- Assistance and funding of essential needs such as housing and daily living expenses.
- Translation services during medical staff visits.

• A part-time bilingual/bicultural Greek-American social worker and program coordinator at Schneider Children's Hospital.
